Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Douglas Siegel on 06/02/04.

Cancel claims 22-25.

Allowable Subject Matter

Claims 2-7, 9-10 and 21 are allowed.

The following is Examiner's reasons for allowance: The closest prior art is USP 6,042,903 to Yedlin which teaches a three dimensional ornament comprising a plurality of strips made of a sheet of metal foil and which may be spaced apart angularly wherein each strip has a first end and a second end and wherein the first end of each strip is attached to a first spine and the second end of each strip is attached to a second spine and a photograph that was published at a metalstreet.com web site in which the photograph shows an ornamental device having a plurality of strips of various length or sizes, wherein each strip defines a star shape and each strip is randomly located in a different plane. The references alone or in combination fail to teach or suggest a three-dimensional ornamental device comprising a spine having a single vertical axis, a series of spaced-apart, progressively longer, elongate strips and a reference elongate strip an ordered succession of adjacent strips with each of the strips that is longer than a

shortest strip being located in a vertical plane that is angularly displaced by a progressively larger angle from a vertical plane in which the shortest adjacent strip is located.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Abraham Bahta whose telephone number is (571) 272-1352. The examiner can normally be reached on Monday - Friday; 11:30 am - 8:00 pm.
